

WAX RECOMMENDATION **TOKO**[®]

Harry Eldridge Memorial

Mt. Van Hovenberg, Lake Placid, NY

Saturday, January 24

Noon

7.5K Classic

Interval start, 100 to 150 skiers

1 loop

Forecast/Conditions: Friday, 30 percent chance of snow, low near zero F. Saturday, cloudy, high 8 F . Snow temp at start, 3 to 4 F with a packed powder surface over a hard base. Track is rolling, mostly in the woods and will be set with a PistenBully.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron together, scrape and brush. Finish by rotocorking JetStream blue, brush with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth, let cool. Cover with 1 thick layer of Carbon BaseWax Green and cork smooth.

Structure: A cold stonegrind will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
