

WAX RECOMMENDATION

Flying Moose Classic

Gould Academy/Bethel Inn, Bethel, ME

Sunday, February 21

11 A.M.

10K/20K Classic

Mass Start

Point to point format

Forecast/Conditions: Saturday night partly cloudy with low around 16. Sunday partly sunny with a high near 34. Packed fresh snow. Snow temperature at start will be in the mid 20s.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon Klister Base Green, cork smooth and let cool. Apply 5 layers of Carbon GripWax Viola or GripWax Red as temperatures rise.

Structure: One pass with TOKO Structurite tool using Red wheel (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
