

# WAX RECOMMENDATION

## USSA Junior Olympics

Nordic Heritage Center, Presque Isle, ME

Wednesday, March 10

Classic

10 A.M. J2 Girls, 10:30 A.M. J2 Boys, 5K

11 A.M. J1 Girls, Noon OJ Girls, 10K

1 P.M. J1 Boys, 2:30P.M. OJ Boys, 15K

Seeded Mass Start

Forecast/Conditions: Tuesday night cloudy with low of 19.  
Wednesday sunny with highs in mid-30s.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue/HF Red mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, apply Carbon Klister Base Green, heat in. While still warm apply a mix of Klister Viola and Klister Multiviola. Add small amounts of Klister Silver klister for added kick.

Structure: A coarse broken structure using the Red wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
