

WAX RECOMMENDATION

Lake Placid Loppet

Mt. Van Hoevenberg Trails, Lake Placid, NY

Saturday, February 6

9 A.M 50K Classic; 9:15 A.M. 25K Classic

10 A.M. 50K Skate; 10:15 A.M. 25K Skate

Forecast/Conditions: Friday night low 3 to 6F. Saturday high in the low 20s. Mostly sunny.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue (all Classic and 25K Skate) or HF Blue/HF Red mixed 1:1 (for 50K Skate only), scrape and brush. Finish by rotocorking JetStream Blue or JetStream Red (50K Skate only), brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2+ layers of Carbon GripWax Blue, corking between layers for 25K. Alternate 4+ layers Blue & Viola for 50K. Be prepared for sun to warm tracks for latter 50K finishers. You may want to carry viola with you.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
