

WAX RECOMMENDATION

Mt. Hor Hop

Mt. Hor, rte. 5A, south end of Lake Willoughby, Westmore, VT

Saturday, January 2

2 P.M.

10K Skate

Interval start

2 loops

Forecast/Conditions: Friday night low 17. Saturday snow with a high in the low 20s. Snow temperature at start about 20, forecast is snow Thursday through Saturday. Track should have a good base and a snowmachine packed powder surface.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A fine linear grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
