Whitaker Woods, North Conway, NH

Saturday, January 9, 2010

High School Boys A Race - 10:30AM

High School Girls A Race - 11:15AM

Middle School Boys Race - 12 Noon

Middle School Girls Race - 12:15PM

High School Boys B Race - 1:00PM

High School Girls B Race - 1:45PM

5k, Classic

Waves of 10, 2 laps, 700+ Skiers

Forecast/Conditions: Overnight low of 15, temperature at start will be 18 degrees. Mixture of coarse and fine grained/windblown snow. Temperature for later races will be in the high 20s. Mostly sunny.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in thin layer Carbon Klister Green, let cool, cork smooth. Then apply 1 layer of Multiviola Klister, let cool then cork in thin top layer of Carbon GripWax Viola.

Structure: A Universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
