

# WAX RECOMMENDATION

## NH Series Race 2

White Mountain Regional HS, Whitefield, NH

Saturday, January 30

10:30 A.M. HS Boys A; 11:15 A.M. HS Girls A

Noon Middle School Boys; 12:15 P.M. Middle School Girls

1 P.M. HS Boys B; 1:15 P.M. HS Girls B

5k, Skate

Waves of 10, 1 lap, 700 skiers

Forecast/Conditions: Overnight low of -2F, temperature at start will be 10 degrees. Mixture of coarse and fine-grained transformed snow, temperature for later races will be in the low teens, mostly sunny.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine grind covered by one pass with the Blue TOKO Structurite tool (old fine offset wheel) before JetStream application will best suit these conditions.

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
