

WAX RECOMMENDATION **TOKO**[®]

Vermont State High School Championships

Craftsbury, VT

Monday, March 1

Skate

Individual races in morning, and Relays in the afternoon

Forecast/Conditions: Sunday night chance of snow showers and mostly cloudy with a low of 21. Monday, chance of rain and snow showers, mostly cloudy with high of 36. Chance of precipitation is 40 percent.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad. In the afternoon if it's wet, JetStream Yellow may work better.

Gripwax: NA

Structure: One pass with TOKO Structurite tool using Red wheel (before JetStream application) will best suit these conditions. In the afternoon use the Yellow wheel if it's wet.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
