

WAX RECOMMENDATION

Harry Eldridge Memorial Freestyle

Lake Placid, NY

Saturday, January 23

Noon

7.5K Skate

Interval start

Forecast/Conditions: Friday night low 13, clear. Saturday, 27 to 30, sunny. Trail conditions are packed powder over granular ice base. Snow temperature in the early PM should be in the high 20s.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
