TD Bank White Mountain Classic 30K - Updated!

Jackson, NH

Saturday, January 21

9:30 A.M.

30K Classic

Mass start

1 Lap

<http://www.jacksonxc.com>

Forecast/Conditions: Several inches of fresh fell overnight Thursday. Friday overnight low -4F, snow temperature at start in the high single digits. PistenBully groomed corn snow with fresh powder mixed in. Temperature rising to low teens later in the race. A 60 percent chance of snow during the race.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in a layer of Nordic Base Wax Green, cork smooth and cool. Cover with 3 layers of Carbon GripWax Mint, corking between layers.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
