

WAX RECOMMENDATION **TOKO**[®]

TD Banknorth Bill Koch League Festival

Gilford Nordic Center, Gilford, NH

Saturday March 1

Race Start: 9:30 Freestyle Races

1PM Trek/Mini-Marathon

Forecast/Conditions: Friday Night: Snow likely. Cloudy, with a low around 10. Chance of precipitation is 70%. Saturday: A chance of snow showers. Mostly cloudy, with a high near 36. Chance of precipitation is 40%.

Glidewax: Whether using Toko System 3, Low Fluoro, or High Fluoro, skiers should following these guidelines: early starters should prepare their skate skis with Blue and Red mixed 1:1. Later skiers will want to apply warmer wax, such as Red, and latest skiers will want to mix Red and Yellow. All skis should be thoroughly scraped and brushed. For speed at all costs, Jet Stream Moly will work well at all times.

Gripwax: If planning to ski after-noon ski trek, sand grip zone lightly with 180 grit sandpaper, apply thin layer of Toko Base Green Binder, and iron in. Cover with TOKO Carbon Yellow. Consult TOKO tent for updates.

Structure: A universal structure will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HelX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork at the expense of durability.
