

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## **Cascade Crest**

Mt Bachelor, OR

Saturday, March 14

10 A.M.

15K/25K Skate

Mass Start

Forecast/Conditions: Friday night low 23, mostly cloudy.  
Saturday high 30 with an 80 percent chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: Coarse Structure. Two passes of the Coarse Offset wheel of a TOKO Structurite tool (before JetStream application) will best suit these conditions.

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
