

WAX RECOMMENDATION **TOKO**[®]

Hanel Loop Race Series

Mt. Hood Meadows, OR

Sunday, January 4

10 A.M.

5K Freestyle

Mass Start

Forecast/Conditions: Saturday night, low of 21, mostly cloudy with a 50 percent chance of snow. Sunday high of 30, mostly cloudy with snow showers likely. Course is 1 lap of a 5K loop.

Glidewax: Apply LF Moly, scrape and brush. Apply HF Yellow/Red mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush, and buff with a thermopad.

Structure: Coarse offset structure or two passes with Toko Structurite on coarse offset before ironing in the HF layer will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
