

WAX RECOMMENDATION **TOKO**[®]

Nancy P's Classic

Mt. Bachelor, OR

Sunday, January 25

10 A.M.

5K/10K/20K Classic

Mass Start

Forecast/Conditions: Saturday night low 17, snow likely.
Sunday, high 22, snow likely.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth, let cool. Apply 2-3 layers of Carbon GripWax Blue, corking between layers.

Structure: Universal structure or 2 passes with Toko coarse linear wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
