

WAX RECOMMENDATION **TOKO**[®]

Ozbaldy

Cabin Creek Snow Park, near Snoqualmie Pass, WA

Exit 63 on I-90

Sunday, March 15

9 A.M.

50K Skate

Mass start

5 laps of a 10K loop

Forecast/Conditions: Overnight low 27, temp at start 28 and warming to around 31 during race. Expect 2 to 4 inches of new snow on Saturday with continued snow overnight and through Sunday.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad. Jestream Hi Speed is also good for those using a previous version of Jetstream.

Structure: Universal grind such as Nordic Ultratune MVX or single pass with Toko Structurite using fine offset roller. Expect new snow to accumulate during the race. Best to choose a ski with a more supple tip/tail.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
