

WAX RECOMMENDATION **TOKO**[®]

Kongsberger Stampede

Cabin Creek Snow Park, Exit 63 I-90 near Snoqualmie, WA

Sunday, February 15

11 A.M.

15K Skate

Mass start

3 laps

Forecast/Conditions: Overnight low 25, temperature at start around 30. Small amounts of snow likely Friday and Sunday which will mix with the old granular snowpack.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brushing with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: N/A.

Structure: Medium offset structure such as Nordic Ultratune MVX or hand structure with single pass of small offset roller of Toko Structurite tool (before JetStream application).

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
