

WAX RECOMMENDATION

Par Fore the Course

Mt. Bachelor, OR

Sunday, February 28

10 A.M.

10K Skate

Interval Start

2 laps

Forecast/Conditions: Saturday night low 23, slight chance of snow showers. Sunday partly sunny, high near 38.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A.

Structure: A fine offset structure covered by one pass with the Red wheel of a TOKO Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
