

WAX RECOMMENDATION

Sunnyside JOQ/ Seniors, Masters

Mt Bachelor, OR

Sunday, February 7

9 A.M.

3K-10K Classic

Interval Start

Forecast/Conditions: Saturday night low 23, chance of snow.
Sunday high 32, chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2 layers of Carbon GripWax Red, corking between layers.

Structure: A fine offset structure covered by one pass with the Red wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
