

WAX RECOMMENDATION

TOKO[®]

Teacup Classic

Hwy 35 Teacup Lake, OR

Sunday, January 29

11 A.M.

15K Classic

Pursuit Start Format

2 Loop Course

<http://www.teacupnordic.org>

Forecast/Conditions: Saturday night low 28, mostly cloudy.
Sunday high near 38, mostly cloudy, chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Yellow, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4 layers of Nordic GripWax Yellow, corking between layers.

Structure: A coarse offset structure covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
