

WAX RECOMMENDATION **TOKO**[®]

Bavarian Cup

Ski Hill, Leavenworth, WA

Sunday February 3rd

Freestyle Events 1K, 3K, 5K, 15K (2 x 7.5)

Race Start 9:00AM

Forecast/Conditions: **Friday Night**...Chance of snow showers. Lows around 20. **Sunday**...Chance of snow showers. Temperatures around 25

Glidewax: Apply LF Moly scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream HighSpeed Moly, brushing with a dedicated nylon polishing brush, and finally, polish with a thermopad. HelX Cold would make an excellent alternative to JetStream.

Gripwax: N/A

Structure: A universal structure will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HelX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork as the expense of durability.
