

WAX RECOMMENDATION

MSU Invitational - Junior Sprints

Lindley Park, Bozeman, MT

Sunday, January 17

Classic Sprints

9 A.M. to 3 P.M. start times

For more details, see www.bsfnordic.com

Forecast/Conditions: Overnight, partly cloudy with a low around 26. South/Southwest wind between 3 and 5 mph. Sunday, mostly sunny with a high near 41. South southwest wind around 5 mph.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Moly, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon Klister Base Green and smooth, let cool. Check race site for final kick layer recommendations. Testing will be done on site prior to races. Expect variable conditions changing throughout the day.

Structure: A medium/universal structure covered by one pass with the Red (medium structure) wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
