

# WAX RECOMMENDATION

## Winterstart

Galena Lodge, 20 miles north of Sun Valley, ID

Sunday, Dec. 13

10 A.M.

5/10K Skate

Wave start

Point to point

Forecast/Conditions: Overnight low of 12F and 60 percent chance of snow. Start temperature 18-20, snow falling. Expect soft fresh powder conditions.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine linear structure covered by one pass with the Blue TOKO structurite tool (old fine linear wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
