

WAX RECOMMENDATION

Potato Cup Pursuit Race

Mink Creek Ski Area, Pocatello, ID

Saturday, January 9

10 A.M. Classic mass start, noon Skate individual start

2K/2K, 5K/5K and 10K/10K Classic/Skate

Forecast/Conditions: Overnight low of 8F, partly cloudy.

Saturday classic start temperature in low teens with a 30 percent chance of snow. Skate start in high teens with a 30 percent chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Check with Toko Tech Team at venue on Saturday morning. Expect Carbon Klister Multiviola as final layer.

Structure: A fine linear structure covered by one pass with the Blue wheel (old fine-linear wheel) of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
