

WAX RECOMMENDATION **TOKO**[®]

MSU NCAA/J.O. Invitational - IMD Qualifier

Bohart Ranch, Bozeman, MT

Saturday, January 16

9:30 A.M.

5K/10K Skate

Individual start

For more details, see www.bsfnordic.com

Forecast/Conditions: Overnight mostly cloudy with a low around 24. Southwest wind around 21 mph, with gusts as high as 30 mph. Daytime high around 33, partly sunny. Race time snow temperature expected in high 20s.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
