

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

**Boulder Mountain Tour -- Updated Friday, 4 P.M.**

Note: We are reverting to original Tip, posted Wednesday.

Ketchum, ID

Saturday, February 6

10 A.M.

32K Skate

Forecast/Conditions: Friday night mostly cloudy with a low of 19. Expect Saturday high of 36. A chance of flurries overnight and during the race.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Blue mixed 1:1, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad. Those expecting to be out longer than 1:45 should use JetStream Red.

Gripwax: N/A

Structure: A fine linear structure (cold). One strong pass of the Toko Structurite with the Blue bit before applying Jetsream will work well.

**Racing - Service**

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
