

WAX RECOMMENDATION

Snowmaker Classic

Prairie Creek, 16 mi. north of Ketchum, ID

Saturday, January 9

10 A.M.

7.5K/15K Classic

Interval start

1 or 2 loops

Forecast/Conditions: Overnight low of 14F with 20 percent chance of snow. Expect start temperature in the mid 20s with a 40 percent chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Blue mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2 layers of Carbon GripWax Viola, corking between layers.

Structure: A medium/fine linear structure covered by one pass with the Red wheel (old medium offset wheel) of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
