

WAX RECOMMENDATION

SPAM CUP #2

Rendezvous Trails, West Yellowstone, MT

Sunday, January 10

11 A.M.

1K/2K/8K/14K Freestyle

Forecast/Conditions: Saturday night, 30 percent chance of snow showers. Mostly cloudy, low around 11F. Sunday, a chance of snow showers, mostly cloudy, high near 28. Expect race time temperature in the low to mid 20s.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 5 layers of Carbon GripWax Viola, corking smooth between layers. Check temperature prior to race start and adjust as needed.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
