## Montana Senior Olympics

Bohart Ranch, Bozeman, MT

Saturday, January 28

10 A.M. 10K/5K Classic

1 P.M. 10K/5K Skate

[www.bohartranchxcski.com](http://www.bohartranchxcski.com)

**Forecast/Conditions:** Overnight low 18. Saturday high 30. Windy conditions so expect drier wind-blown track conditions. 10 A.M. start temperature around low 20s and 1 P.M. start temperature around upper 20s.

**Glidewax:** Apply LF Moly, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4-5 layers of Nordic GripWax Red, corking between layers.

**Structure:** A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

# Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to [www.TokoVideos.com](http://www.TokoVideos.com).
