

WAX RECOMMENDATION

OSCR XC Ski Marathon

Seeley Lake Ski Trails, Seeley, MT

Saturday, January 28

10 A.M.

50K/20K/10K Freestyle

Mass start, single lap

www.missoulanordic.org

Forecast/Conditions: Overnight low around 2F, temperature at start around 21. Some new snow expected, temperature later in the race around 26.

Glidewax: Apply LF Moly/HF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4-5 layers of Nordic GripWax Red, corking between layers. Adjust as needed.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
