

# WAX RECOMMENDATION

# TOKO<sup>®</sup>

## SmartWool Wasatch Citizen Series Race #1

Soldier Hollow, Midway, UT

Saturday, December 17

10 A.M.

10K Classic (shorter for juniors and novices)

Wave starts by age group

4 laps on a 2.5K course

<http://www.utahnordic.com/node/1997>

Forecast/Conditions: Overnight low 18, temperature at start 26, partly cloudy. Expect abrasive man-made snow and a crowded track.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green (\*very important to have a binder layer), cork smooth, let cool. Then apply 2 layers of Nordic GripWax Red, corking between layers.

Structure: A universal stonegrind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions.

# Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to [www.TokoVideos.com](http://www.TokoVideos.com).
