

# WAX RECOMMENDATION

## Sacagawea Classic - Updated!

Bohart Ranch, Bozeman, MT

Saturday, January 21

10 A.M.

15K/5K/3K/1K Classic

Mass Start

15K race is multiple laps

[www.bohartranchxcski.com](http://www.bohartranchxcski.com)

Forecast/Conditions: Overnight low around 26, temperature at start in upper 20s to low 30s. Expect fresh dry snow, packed powder track possibly glazing and light snow likely during the race.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Check TOKO easel at warming cabin for up-to-date kick wax recommendation.

Structure: A universal grind covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to [www.TokoVideos.com](http://www.TokoVideos.com).
