

# WAX RECOMMENDATION

## SmartWool Wasatch Citizens Series Race #3 Updated!

Soldier Hollow, Midway, UT

Saturday, January 21

10 A.M.

15K skate (shorter for juniors and novices)

Wave starts by age group

3 laps on a 5K course

<http://www.utahnordic.com/node/2003>

**Forecast/Conditions:** Overnight low 29, temperature at start near 40, winds up to 20 mph and an 80 percent chance of rain turning to snow around 10 A.M. Expect a mix of manmade and new snow with mix of rain and snow throughout the day.

**Glidewax:** Apply LF Moly, scrape and brush, then apply HF Moly, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** NA

**Structure:** A wet grind covered by one pass with the Yellow Structurite tool before JetStream application will best suit these conditions. Choose stiff skis to reduce suction.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to [www.TokoVideos.com](http://www.TokoVideos.com).
