

WAX RECOMMENDATION

Junior National Qualifier #1

Rendezvous Trails, West Yellowstone, WY

Saturday, January 14

Skate Sprints

9 A.M. Qualifiers, Noon heats

Interval start for Qualifiers

Forecast/Conditions: Overnight low 7F, Saturday high 31 and sunny. Temperature at morning start anticipated in upper teens to low 20s, expect packed powder mixed with transformed snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue/HF Red mix 1:1, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad. Apply Jetstream Red for Quarterfinal Heats and later.

Gripwax: N/A

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
