

WAX RECOMMENDATION

TOKO[®]

Bozeman Supertour

Bohart Ranch, Bozeman, MT

Saturday, December 3

9 A.M.: Freestyle Sprint Prologue

Noon: Women 5K/Men 10K Skate

<http://www.bridgerskifoundation.org/super-tour/>

Forecast/Conditions: Overnight low 9F with chance of snow, start temperature in mid-teens warming to a high of around 20. Expect dry new windblown snow, typical Bohart Ranch conditions. HF Blue is often the call at this venue even if temperature rises into the 20s.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
