

WAX RECOMMENDATION

Bozeman Supertour

Bohart Ranch, Bozeman, MT

Sunday, December 4

2 P.M.

Women 15K/Men 20K Classic

Mass start, 5K laps

<http://www.bridgerskifoundation.org/super-tour/>

Forecast/Conditions: Overnight low around 15. Temperature at start and high expected around 22F. Expect dry windblown snow with glazing in tracks from multiple laps.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue/HF Red mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-5 layers of Nordic GripWax Red, corking between layers. Adjust as needed.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
