Check the Waxtip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (Helix, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork at the expense of durability.
