

# WAX RECOMMENDATION

## Spam Cup #2

West Yellowstone Rendezvous Trails, MT

Saturday January 5

15K Free

Race Start 11AM

Forecast/Conditions: Saturday night low of 20F with a chance of snow showers until 11AM Saturday morning. Saturday high temperature of 30F expected.

Glidewax: Apply LF Moly scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Moly, polishing well with a dedicated nylon polishing brush, and finally, buff with a thermopad.

Gripwax: NA

Structure: A universal structure will best suit these conditions.

Check the Waxtip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HeIX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork at the expense of durability.
